What is something unique about your product or service?

We are an end-to-end threat detection and munitions tracking AI platform with more than 1,000+ customers of our TRL-9 commercial product, enabling us to quickly adapt our AI to government use cases.

What do you consider your organization's differentiator?

We are experts at AI-powered people and weapons tracking using existing hardware, and we can quickly adapt our tech to run on virtually any camera or compute unit for almost any mission.

What capability gaps are you able to fill and which industry colleagues would you like to know about them?

We are looking for hardware- and optics-focused partners who want to add a layer of autonomy to their solutions.

Capabilities:

Artificial Intelligence

Computer Vision

Threat Detection
