What are your teaming goals within NAMC?

Connect, collaborate and support DoD Platform Primes at any stage of the program lifecycle. Our experience with development, prototyping, IAT&C, precision manufacturing, re-design, DMSMS and MRO makes us a unique partner. We hope to establish value-based relationships to support a variety of your teams.

What do you consider your organization's differentiator?

McNally Industries is an experienced, hardworking and passionate manufacturing and engineering company. Our Team is positioned to support Platform Primes at any stage of the program lifecycle. From cocktail napkin innovation to sustainment to DMSMS, re-design and TDP Development; we stand ready to provide safe, reliable and ready systems to those defending our country.

What capability gaps are you able to fill and which industry colleagues would you like to know about them?

McNally Industries is focused on quick turn-times and minimal long lead constraints. Our AS9100 Certified Organization is quality and safety focused. If your team is experiencing challenges with new product design, DMSMS/Re-Design/TDP Development, Prototyping, Precision Manufacturing of difficult materials/finishings, Cable/Electrical Assemblies or Maintenance/Repair/Overhaul, look no further. We have capacity to help you today!
