Q: What are your organizational goals?

A: Silicon Forest Electronics Goal, about the NAMC organization, is to team and offer our service as a subcontracting extension of Autonomous System and Vehicles providers' capability. Our unique and comprehensive capabilities help our clients quickly advance their products from the drawing board to deployment without the burden of significant internal investment into these unique vertical capabilities. We focus on the Autonomous and Robotic market and have a wide array of capabilities to serve the Ground, Air and Marine Autonomous marketplace.

Q: What is something unique about your product or service?

A: Silicon Forest Electronics is an electronics manufacturing services company. We stand out from other system assembly companies as we have a full breadth of capabilities through our enterprise. We offer comprehensive design, electronic assembly, Level 2 electronic system assembly, cable & wire harness assembly and full system assembly. We are a one stop shop.

Q: What are your teaming goals within NAMC?

A: We wish to team with creators and producers of Autonomous Systems and Vehicles and assist in quickly advancing these systems to the forefront for deployment.

Capabilities:

Service provider of Electronic and Electrical Assembly for Autonomous Systems
